

```
1 class Demo
2 {
3     public static void main(String args[])
4     {
5         char c[]={'a','b','c','d','e','f'};
6         String s=new String(c);
7         System.out.println(s);
8     }
9 }
10 //output:-abcdef
```
