```java
class Demo
{
    public static void main(String args[])
    {
        String s="welcome";
        byte[]b=s.getBytes();
        for(byte b2:b)//Enhanceed for loop
            System.out.println(b2);
    }
}
/*out put:-119
101
108
99
111
109
101*/
```
